

Braille Provision

WCU Office of Disability Services

If anyone has a need for documents in Braille, please know that the Office of Disability Services is glad to offer the service. Here is the process:

- The document must be a Word file
- Images can be included but need typed text descriptions to go along with them
 - Please keep in mind that important captions within an image may also be images themselves and not actual text
 - Tables may also fall in the category of being images instead of text
- Send the Word Document to lalexis@wcu.edu
